James Hawkins, PhD, LPC***Facilitating the Function of Attachment in Distressed Adult Romantic Relationships: An Emotionally Focused Therapy (EFT) Framework***

Monday - Friday: 9:00a.m. - 12:30p.m. EDT | 30-Minute Break Daily | 15-Hour Course Delivery Format: In-Person or Live-Online

Emotionally Focused Therapy (EFT), founded by Dr. Sue Johnson, is a cutting-edge, tested, and proven couple intervention developed in tandem with the science of adult attachment. Research indicates that secure attachment and emotionally fulfilling relationships are integral components of mental and physical health and that emotionally focused interventions have the power to establish and recreate supportive bonds among individuals.

In this learning experience, Dr. Hawkins will bring his expertise and creativity to help clinicians improve their focus and efficacy in working with couples stuck in emotional and relational distress and move from rigid cycles of self-protection to flexible cycles of connection.

In this experiential course, learners will journey through the flow of attachment in adult romantic relationships with a particular focus on guiding couples toward the beacon of secure connection. Through the use of clinical tapes, role plays, and experiential exercises, special attention will be given to helping clinicians address common blocks and detours that occur in the treatment of clinically distressed couples.

This course is open to seasoned couples therapists and individual, child, and family therapists interested in learning more about EFT and how applying the language of attachment and emotion-focused interventions can effect change in challenging and stressful relationships and moments.

Course Agenda**Monday:**

- What is Our Beacon for Adult Romantic Relationships
- Foundations of EFT: core tenets of attachment theory and working with emotion
- Going from Rigid Cycles of Self-Protection to Flexible Cycles of Connection
- Dancing the EFT Tango: The Session Guide

Course Objectives

Upon completion of this course participants will be able to:

1. Discuss the foundations of attachment theory and attachment style
2. Explain how to assess attachment security in couples and foster the creation of a secure bond between partners
3. Describe the core tenets of Emotionally Focused Therapy with couples, including how to work with emotion and attachment in sessions
4. Describe strategies to help the couple define the problem as the cycle rather than each other
5. Describe EFT strategies to help couples increase vulnerability and access underlying feelings that drive reactive patterns/cycles
6. Practice EFT skills that will help couples learn to reach and respond
7. Summarize EFT strategies, including reflection, validation, evocative questioning, parts works, and the use of the therapist to help maintain focus during reactive or stuck clinical processes
8. Discuss how to help clients touch the underlying feelings that drive the reactivity
9. Describe how to expand and re-organize key emotional responses and, in the process, the organization of self
